"Al Amoudi believes that the company's efforts to invest in new technology will allow Ethiopia to compete in the global market."

By Gayle Cottrill

A group of approximately 15 young men, likely high school or college seniors, are posed in a well-lit hallway. They are all dressed in formal dark suits with white shirts and various colored ties (red, blue, yellow). They are arranged in two rows, with some standing slightly behind others. The hallway has large windows in the background and a patterned carpet. The overall atmosphere is professional and celebratory.

**Happiness is not something you
postpone for the future; it is
something you design for the
present.**

ABOUT GREENERGY

GREENERGY is a power supply project that aims to combine the future-oriented blockchain technology with a smart and environmentally friendly use of renewable energy.

The focus is the price reduction of energy generated by natural resources: it needs to be brought down to the low price level of energy from conventional fuels like gas and coal or nuclear power plants.
